-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 5, 7-14, 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by US 3,642,263 to Pine et al (Pine et al). Pine et al teaches an annealing rack (figures 1-7 for example) including at least one annealing rack element (184) including a rest (186) and corner supports (188) projecting upwardly from the rests (186) where, in the sense that all components are detachable to some extent (by cutting for example) and the instant claims recite no particular structure for detachability, meet the requirement of a detachable connection, where the rack element includes a basket structure (182) stackable and removable placed upon the rack element (184) where the basket (182) includes rests (206) and upwardly extending corner supports (204) and struts detachably connected to the basket floor and each other, thereby showing all aspects of the above claims, since the term "designed for a particular annealing stock" without defining what type of stock is intended and in what manner the basket is modified to accommodate the particular stock, this term is so broad as to encompass any basket shape or design.

Claims 1-5, 7, 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by US 2,807,454 to Beadle (Beadle). Beadle teaches an annealing rack (figures 1 and 2 for example) including at least one annealing rack element (34) stackable upon another rack element (see

Art Unit: 1793

figure 2 for example) including a rest, corner supports projecting upwardly from the rests and rack struts where, in the sense that all components are detachable to some extent (by cutting for example) and the instant claims recite no particular structure for detachability, meet the requirement of a detachable connection, where the rack element includes a removable basket structure (wire basket 30) showing all aspects of the above claims, since the term "designed for a particular annealing stock" without defining what type of stock is intended and in what manner the basket is modified to accommodate the particular stock, this term is so broad as to encompass any basket shape or design.

Allowable Subject Matter

Claims 6 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to newly amended claims 1-17, which now require both a basket and a rack or frame structure, have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Art Unit: 1793

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
